

Cum instalam Arduino IDE si librariile pentru utilizare software si compilare Posturi de Control (statii)

1) Se instaleaza Arduino IDE

<https://www.arduino.cc/en/main/software>

instalarea se face cu next / next...

2) Se instaleaza driverele CH341SER pentru Arduino

Link:

<https://github.com/alexandrucaivoiu/UltraOrienteeringCheckPoint/tree/master/Requirements/CH341SER>

3) Se descarca Librariile

<https://github.com/alexandrucaivoiu/UltraOrienteeringCheckPoint/tree/master/Requirements/Libraries>

4) Se adauga librariile dezarhivate in Documents\Arduino\libraries

(se creaza folder-ul libraries daca nu este) dupa care se adauga cele 6 librarii

5. Acum putem deschise fisierul src/otimcon0_2/otimcon0_2.io pentru a compila statiile.

Nu uitati sa selectati PORT si Board Nano Arduino din Tools
